## **DETAILED ACTION**

### ***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Claim Objections***

2. Claims 1 and 10 are objected to because of the following informalities:

In claim 1, line 1, "for receive" and on line 12, "between in the reception" are phrases that are grammatically lacking. Applicant is requested to review all the claims for grammar and/or spelling errors.

In claim 10, there are two sub-paragraphs (e).

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

3. Claims 1-6, 10-18 and 24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In independent claims 1, 10 and 15, the preamble recites a method for calibrating an offset interval for receive echo pulses. However, the last step in each of these independent claims specifies summing the first and second delays to determine the offset interval for the echo pulse. It is unclear how the last step (specifically the "determining" step) provides for that which the preamble recites (namely, calibration).

In claim 15, line 11, there is no antecedent for "said first delay".

Claim 24 is inappropriately dependent upon claim 25.

***Allowable Subject Matter***

4. Claims 7-9, 19-23, 25 and 26 are allowed.
5. Claim 24 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
